## Summer Assignment 2017 (Revised 6/27/17)

### To my incoming Precalculus students,

I am looking forward to an exciting year of Precalculus with you! I can't wait to get to know each of you, and I am eagerly anticipating a fun year together. Below you will find directions and a grading rubric for a **required** summer assignment. If you have any questions before the end of the school year, come see me in my classroom (2-18). Should have any questions over the summer, please feel free to email me ([efrey@pmamethuen.org](mailto:efrey@pmamethuen.org)); I will endeavor to check my email every 2-3 days and respond as soon as I can.

### Purpose

The goal of this assignment is to keep your math skills sharp during a time when you are not in school. To that end, I have created a class through TenMarks Education, an Amazon Company. This is a free website that allows me to create and send online assignments to students; I will be able to track your progress and confirm when you complete each assignment. All assignments will review concepts covered in Algebra 2.

### Directions

- You will receive an email from me through your PMA email address with your TenMarks username and password information ([www.tenmarks.com/login](http://www.tenmarks.com/login) )
- I will open 5 distinct assignments on **July 15th**; these will expire **August 7th**. You can complete them at any time during this window of time; you decide what works best with your schedule.
- I will open 5 distinct assignments on **August 8th**; these will expire on August 31st. You can complete them at any time during this window of time; you decide what works best.
