May 2018

Dear Parents/Guardians,

We would like to take this opportunity to welcome you to Presentation of Mary Academy and to explain the nursing services offered. The Nurse's office is located in Room 2-7, off the main foyer. A nurse will be in the office from 7:45 a.m. to 2:15 p.m. each day. A nurse is available to administer first aid and emergency care to students, to provide health counseling to students, parents, and school personnel, and to educate students, families, and staff about health problems, health care, and self-care.

One of the integral functions of the school nurse is to keep an updated health record for each student. Enclosed are three health forms that need to be completed and returned to the school by August 16, 2018. **If your daughter's/son's health record does not contain these three completed forms he/she may not be able to begin school.**

1. **Physical examination form**
   Must be completed by a physician. Please be sure that the form is completed with Immunization record dated, (a list of all necessary immunizations are included in this packet), which includes scoliosis screening**. Any student participating in a school sport MUST have a current physical on file before the start of the sport season. The MIAA requires the physical to be done within 13 months of the first day of the sport season.**
2. **Health History Form**
   Parents/Guardians must complete this form. Please indicate any sports your daughter/son has an interest in participating in throughout the year.
3. All new students must have either a TB test or a low risk assessment complete within one year of entry. Massachusetts Department of Public Health low risk assessment is included on the Physical Exam Form.
4. **Consent for Approved Discretionary Medications:** Under our physician's order, we are able to administer a limited amount of over-the-counter medications.
5. All athletes must have a signed permission slip to participate in a sport and a concussion packet completed and signed by parent and student. Concussion Packets can be found on our schools website.

Aside from the over-the-counter medications that are clearly stated on the form, **NO medication will be administered without a specific doctor's order**. If a student needs medication during school hours, either on a regular schedule or as needed, he/she will need a doctor's order for each medication. This includes short-term medication administration, such as antibiotics. Any medication that is necessary during the school day should be delivered to the nurse **with** an order from the doctor. An inhaler that a doctor has ordered to be carried by the student is the only meditation a student may carry.

If you have any health concerns or questions, please feel free to call the Nurse's office, (978) 682-9391 X114. Thank you.

Respectfully,

Janice MacDonald, RN

Janice MacDonald, RN

Massachusetts School Immunization Requirements 2018-2019

Grades 7-12

Requirements apply to all students including individuals from another country attending or visiting classes or educational programs as part of an academic visitation or exchange program. In ungraded classrooms, grade 7 requirements apply to all students >12 years. Requirements apply to all students, even if over 18 years of age.

Tdap	**1 dose;** and history of DTaP primary series or age appropriate catch-up vaccination. Tdap given at >7 years may be counted, but a dose at age 11-12 is recommended if Tdap was given earlier as part of a catch-up schedule. Td should be given if it has been £10 years since Tdap.
Polio	**4 doses;** 4th dose must be given on or after the 4th birthday and >6 months after the previous dose, or a 5th dose is required. 3 doses are acceptable if the 3rd dose is given on or after the 4th birthday and >6 months after the previous dose. In a mixed OPV/IPV schedule at least 4 doses are required, regardless of age.
Hepatitis B	**3 doses;** laboratory evidence of immunity acceptable
MMR	**2 doses;** first dose must be given on or after the 1st birthday and the 2nd dose must be given >28 days after dose 1; laboratory evidence of immunity acceptable
Varicella	**2 doses;** first dose must be given on or after the 1st birthday and 2nd dose must be given >28 days after dose 1; a reliable history of chickenpox* or laboratory evidence of immunity acceptable
Meningococcal	**1 dose;** 1 dose MenACWY (formerly MCV4) required for newly enrolled full-time students attending a secondary school with grades 9-12 (in ungraded classrooms, those with students >13 years) who live in a congregate living arrangement approved by the secondary school (e.g., dormitory). Students may decline MenACWY vaccine after they have read and signed the MDPH Meningococcal Information and Waiver Form provided by their institution. Meningococcal B vaccine is not required and does not meet this requirement.

College

Requirements apply to all full-time undergraduate and graduate students, all full and part-time health science students and any full or part-time students attending any postsecondary institution while on a student or other visa, including foreign exchange students attending or visiting classes as part of an academic visitation or exchange program.

Tdap	**1 dose;** and history of a DTaP primary series or age appropriate catch-up vaccination. Tdap given at >7 years may be counted, but a dose at age 11-12 is recommended if Tdap was given earlier as part of a catchup schedule. Td should be given if it has been >10 years since Tdap.
Hepatitis B	**3 doses;** laboratory evidence of immunity acceptable
MMR	**2 doses;** first dose must be given on or after the 1st birthday and the 2nd dose must be given >28 days after dose 1; laboratory evidence of immunity acceptable. Birth before 1957 is acceptable for non-health science students.
Varicella	**2 doses;** first dose must be given on or after the 1st birthday and 2nd dose must be given >28 days after dose 1; a reliable history of chickenpox* or laboratory evidence of immunity acceptable. Birth before 1980 in U.S. is acceptable only for non-health science students.
Meningococcal	**1 dose;** 1 dose MenACWY (formerly MCV4) required for newly enrolled full-time undergraduate and graduate students in a degree program at a postsecondary institution (e.g., college) who will live in a congregate living arrangement approved by the institution (e.g., dormitory). Students may decline MenACWY vaccine after they have read and signed the MDPH Meninaococcal Information and Waiver Form provided by their institution. Meningococcal B vaccine is not required and does not meet this requirement.

* A reliable history of chickenpox includes a diagnosis of chickenpox, or interpretation of parent/guardian description of chickenpox, by a physician, nurse practitioner, physician assistant or designee.

PHYSICAL EXAMINATION FORM 2018-2019
